

# London Region of U3As

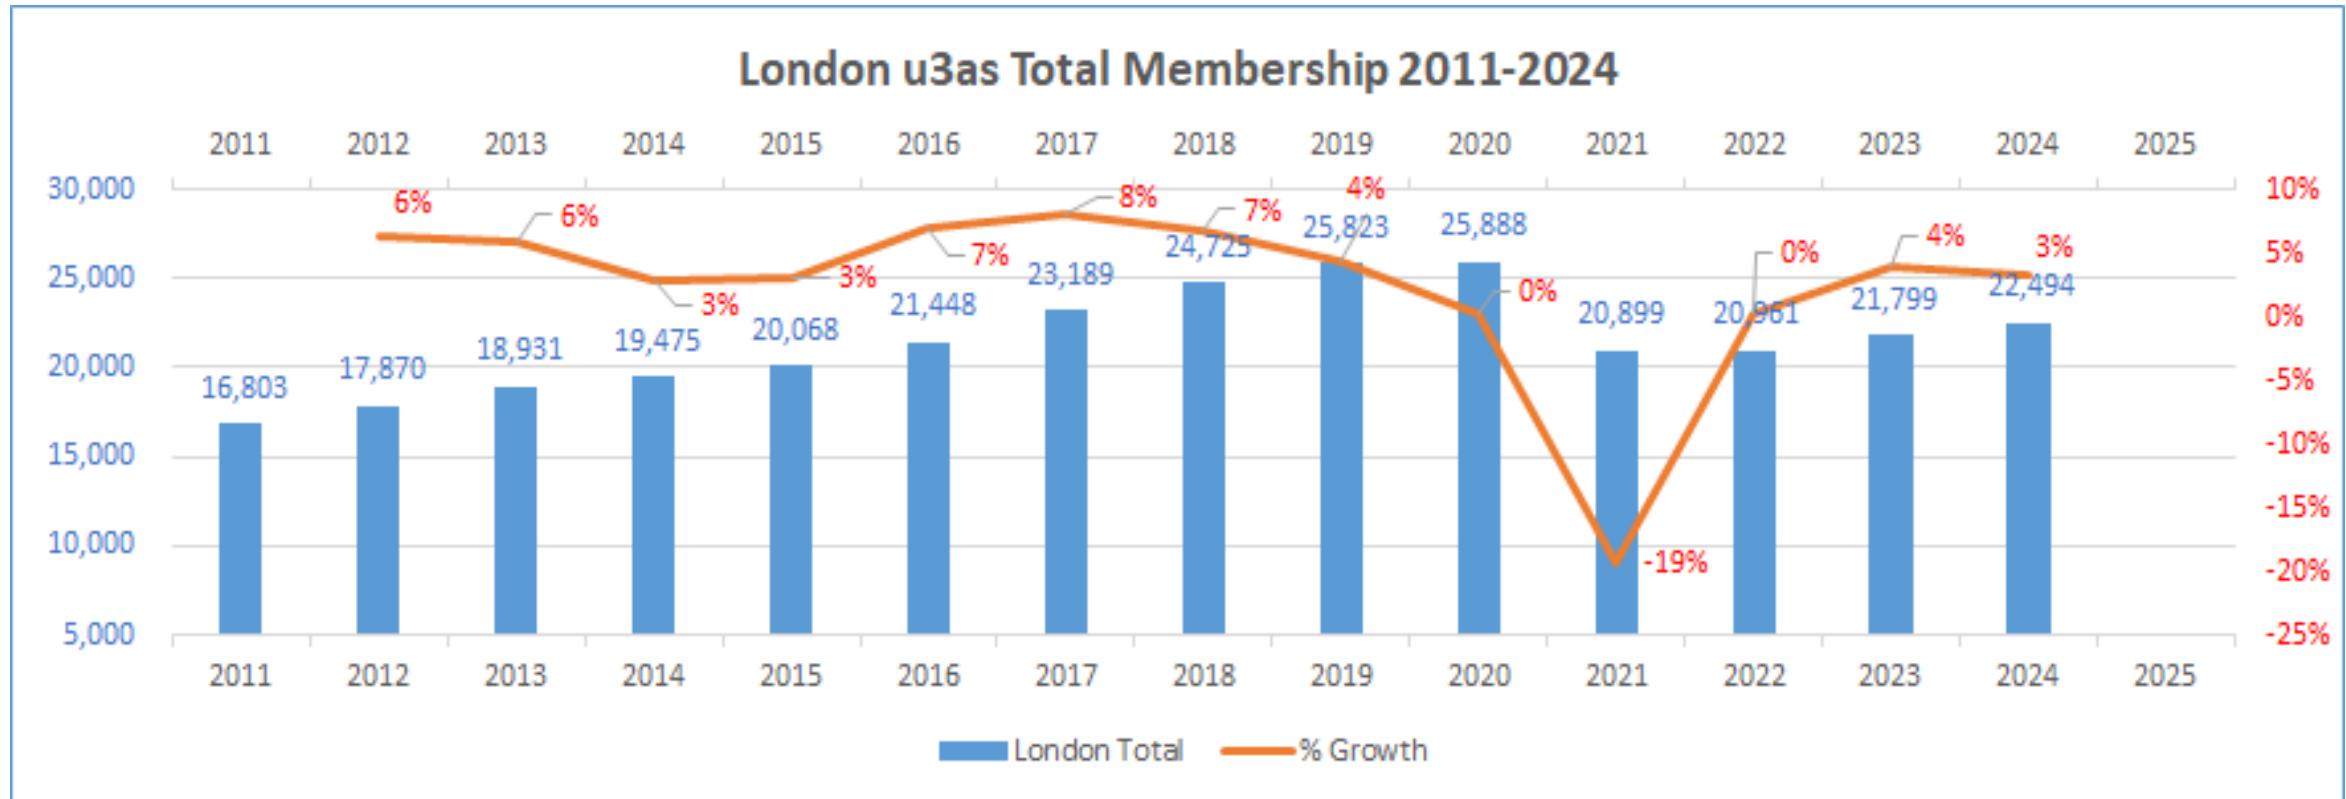

## u3a Membership Growth for London Region

April 2025

Rev. 01

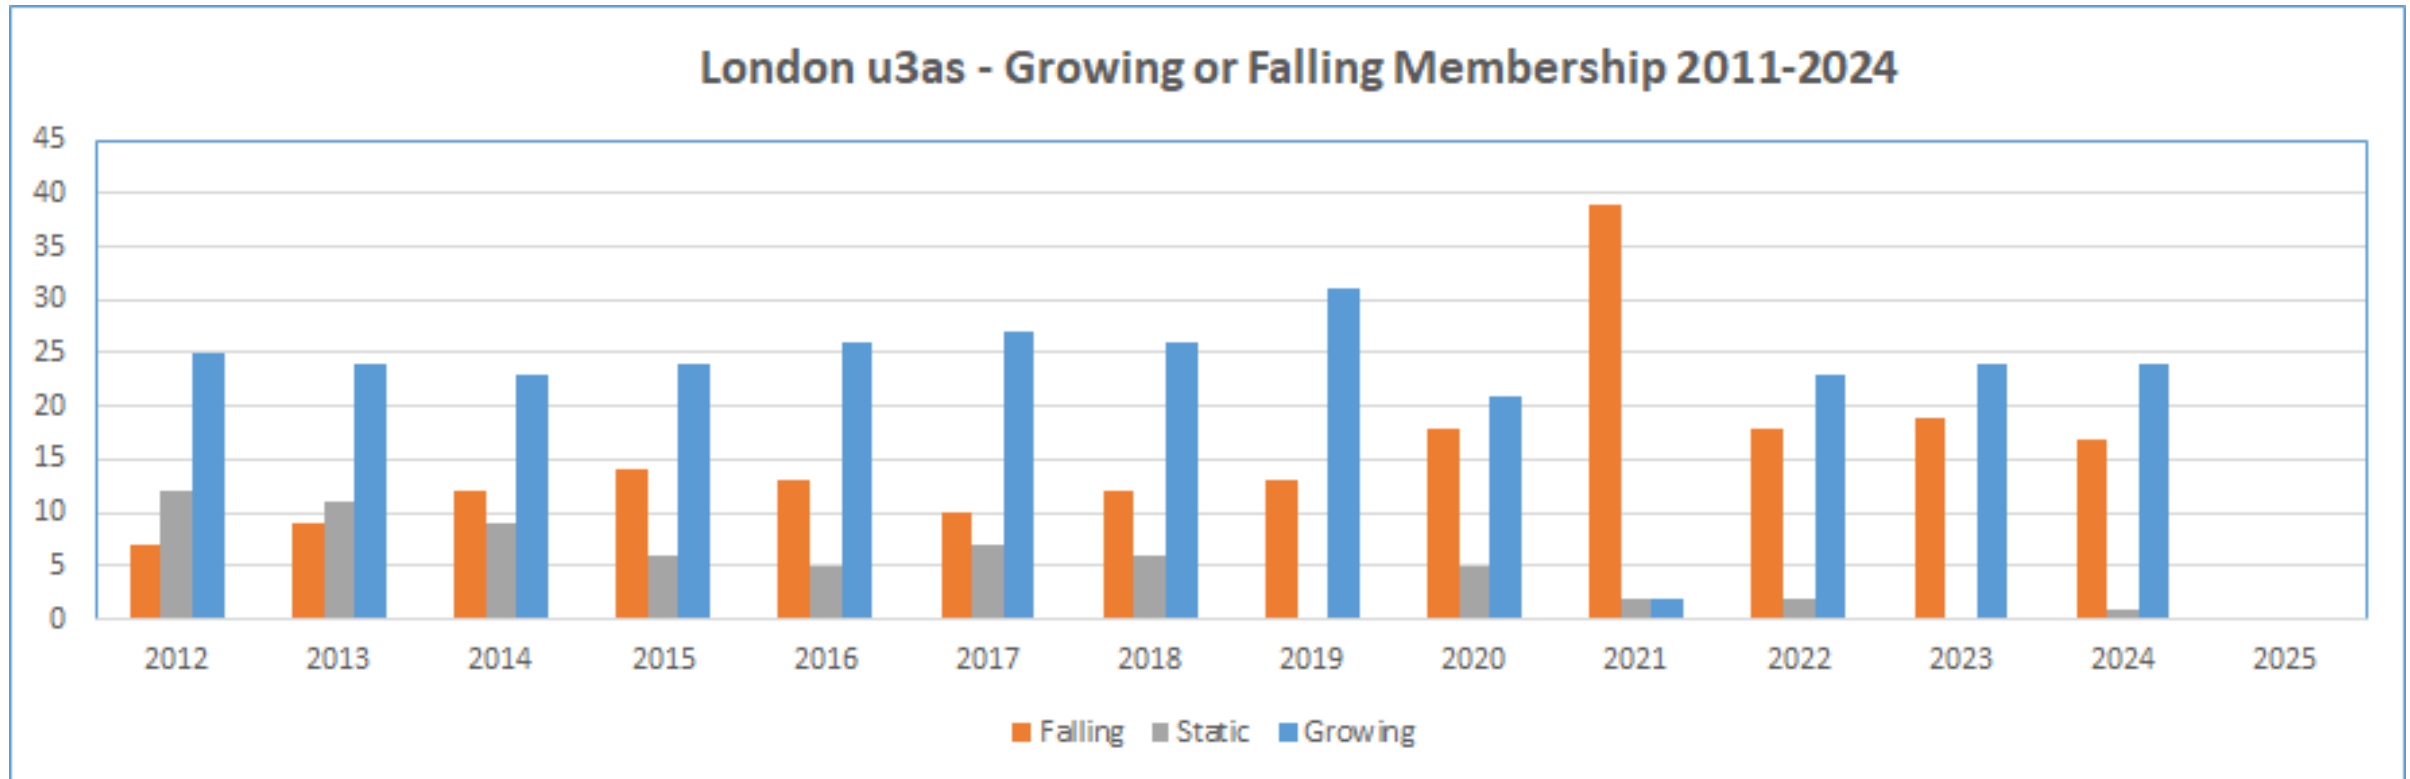

# Membership Trend

The plunge in membership over the Covid period is very evident - and then, now, (slow) growth. We need to see further growth of over 3,000 in London just to get to where we were before Covid hit.

# Rising or Falling Membership Levels

There are currently 17 London u3as that are seeing a falling membership. So any good work done by some u3as in growing their membership is being almost wiped out by the falling numbers in the others.

- Are you one of the 17 u3as with a falling membership?
- Do you know if your u3a is growing or falling.
- If falling, is it sustainable or will it fold like Haringey and Dagenham?
- What can you do to reverse the trend?
